

INTERNAL MEMO

TO: AWWDA STAFF
FROM: AG. DEPUTY DIRECTOR - ICT
DATE: 26TH JUNE 2026
RE: SECURITY ALERT ON PHISHING EMAILS IMPERSONATING HR

The above subject refers.

This is to notify all staff that there has been a significant increase in fraudulent phishing emails targeting AWWDA staff. These emails are designed to impersonate official communications from the Human Resources (HR) department and typically reference promotions or bonus notifications in order to trick you into clicking malicious links or disclosing their login credentials.

Staff are advised to be on the lookout for the following indicators of a phishing email:

- Emails claiming to be from HR regarding a promotion or confidential performance review
- Links directing you to a login page to view a "promotion letter" or "payroll update"
- Requests for your password, personal details, or banking information via a link or form

All staff are required to take the following action upon receiving a suspicious email:

- Do NOT click on any links or open any attachments contained in the suspicious email
- Do NOT enter your AWWDA username, password, or any personal details on any website linked from such an email
- Forward the suspicious email (as an attachment) to the ICT Department immediately
- If you are uncertain whether an HR communication is genuine, verify directly with the HR Department — do NOT reply to the suspicious email
- If you have already clicked a link or entered your credentials before reading this memo, notify the ICT Department immediately without delay

Staff are further reminded NOT to forward suspicious emails to colleagues, attempt to visit the linked website independently, or delete a suspicious email before reporting it, as the email is required for ICT investigation and analysis.

Your prompt action and vigilance are essential to protecting both your personal accounts and AWWDA's organisational data.
